

To Save Ferelden

Like father like son we shall bring Justice to the Pretender on the throne, and Howe, for their many crimes against our beloved Ferelden.

Loghain mac Tir, the mad Regent, for hiring a blood mage and sending him to poison Eamon Guerrin, Arl of Redcliffe; for selling Denerim's elves into bondage to Tevinter Slavers; and for abandoning our King Cailan and thousands of Fereldans to die at Ostagar, a battle that would have been won with a loyal general in charge

Rendon Howe, former Arl of Amaranthine and author of numerous vile and horrid acts, for the betrayal and murder of Teyrn Bryce, Teryna Eleanor, Oriana, and Oren Cousland and their retainers.

We are the Sons & Daughters of Maric

We fight for a Free and Just Ferelden for all Fereldans

Justice is Coming.
